

CURBSIDE TRASH & RECYCLING CARTS

BETTER FOR YOUR CITY BETTER FOR YOUR RESIDENTS BETTER FOR OUR ENVIRONMENT

Cascade knows sourcing through the competitive bidding process can consume your time, resources, and money while purchasing solid waste and recycling products. We make it our business to improve yours, so we have a solution that expedites the process. Cascade Engineering has held cooperative purchasing contracts with MassDEP since 2009 that satisfy your bidding requirements - so your local government can dedicate that time, money and those resources to other solid waste, recycling, and public works department initiatives.

Through our Commonwealth of Massachusetts Statewide Contract #FAC113, we offer your community access to the following types of goods and services:

- Residential roll-out carts
- Lifter solutions
- Rugged RFID and GPS technologies for seamless assembly and distribution services
- Complete asset management
- Cart recovery and recycling

Entities eligible to take advantage of the statewide contract include: cities, towns, districts, counties, public authorities, public purchasing cooperatives, and more.

Visit Cascade online for additional product and service information and contact your Regional Sales Manager for a quote today!
